Emphasizing Safety & Protection.

PH&S Products, LLC is a leading supplier of high quality gloves for the First Responders, EMS, Law Enforcement and the Public Health & Safety Community. We manufacture and market gloves for the safety and personal protection of those who put themselves in harms way everyday. Striving to provide high quality medical grade gloves to withstand the pressure of this type of market, our glove line offers NFPA certified gloves and third party tested for hold out property for Fentanyl, Heroin and Gastric Acid. We are committed to meeting our customer's requirements and will continue to improve our products, processes and service that our customers can depend on.

“With the increase in fentanyl laced drugs hitting our area, I have switched to Get-A-Grip gloves almost exclusively since I don't want gloves tearing during vehicle searches.”
